

Public Involvement Plan

Sunoco Philadelphia Refinery

Introduction

This Public Involvement Plan is intended to address public notification for work done under Pennsylvania's Land Recycling and Environmental Remediation Standards Act (Act 2) and the United States Environmental Protection Agency's (EPA) Resource Conservation Recovery (RCRA) Corrective Action Program.

Background

Sunoco entered into a Consent Order and Agreement (CO&A) with PADEP in 2003 to conduct necessary investigations and remediation of the land and groundwater. One of the goals of corrective action is protecting human health and the environment, consistent with the requirements of PADEP's regulations on remediation (PA Act 2). The COA required Sunoco to prioritize remedial investigation activities across 11 Areas of Interest (AOIs) that make up the entire facility and to conduct remediation based on the results of the investigation work. In accordance with the CO&A and Phase I Remedial Plan, a Current Conditions Report and Comprehensive Remedial Plan (CCR) was prepared by Sunoco in June 2004. The Phase I Plan and the CCR carried forward the COA concept by dividing the facility into 11 AOIs, and presented a prioritization of the AOIs. All work activities have been and will be reported to PADEP/EPA through Work Plans and Site Characterization/Remedial Investigation Reports.

In April 2004, PADEP and EPA's Region 3 signed a Memorandum of Agreement (MOA) for the One Cleanup Program (a.k.a., PA One Cleanup Program). The PA One Cleanup Program recognizes the benefit of avoiding duplicative work activities to satisfy similar requirements between the state and federal remediation programs. Region 3 reviewed and evaluated Pennsylvania's Voluntary Cleanup Plan (VCP) and determined that the VCP included each of the elements of a state response program listed in CERCLA Section 128(a)(2) but EPA retained all authority in the Commonwealth for RCRA Corrective Action. Sunoco petitioned EPA and PADEP to enter the Philadelphia Refinery into the PA One Cleanup Program with the intent that the work conducted under the CO&A and Act 2 would satisfy both EPA and Pennsylvania remediation requirements. PADEP and EPA agreed with this approach, and the Philadelphia Refinery has been formally entered into the One Cleanup Program.

Sunoco submitted a Notice of Intent to Remediate (NIR) on October 12, 2006 to formally enter the facility into the PA Act 2 Program and the NIR was published and

subject to public participation soon thereafter. A parcel adjacent to the facility known as the Belmont Terminal is not subject to RCRA corrective action requirements and was not included in the NIR but is covered under the CO&A. The facility's participation in the PA One Cleanup Program will be included in the RCRA Corrective Action Module of its RCRA Part B Permit.

The Act 2 Report submittals will include the appropriate municipal and public notice requirements in accordance with the provisions of Act 2. Notices will be published in the Pennsylvania Bulletin and a summary of the notice will appear in at least one local newspaper. As part of the Public Involvement Plan, Sunoco intends to hold an initial public meeting and subsequent meetings on an as-needed basis upon request of the City of Philadelphia to give status updates of the project. EPA will complete additional public involvement through activities, such as notices under the Corrective Action Program and by updating its online Fact Sheet for the refinery.

Availability of Public Documents

Per Land Recycling regulations 250.6c, reports detailing work conducted under the CO&A and Act 2 will be available for public review at the Library at 20th and Shunk Streets (the former Passyunk Branch) and the Eastwick Branch at Island Avenue and Lindbergh Boulevard. The contact person for any questions regarding any aspect of Sunoco's Philadelphia Refinery Remediation Program is Kevin Thompson, Public Relations Director for Sunoco. Kevin can be reached at (215) 977-6313

Public Information Session

The initial public meeting will be held in the City of Philadelphia to give an overview of the project. Per Land Recycling regulations 250.6c, Sunoco will advertise the notice for a public information session in the South Philly Review, the Inquirer, the Daily News and the Globe Times newspapers a minimum 30 days prior to the date of the meeting. Sunoco will notify the S/SW Philadelphia Community Advisory Panel members of the meeting and seek their attendance. Sunoco will provide the Lena Maloney CDC/Eastwick at the Meadows facility at 6630 Lindbergh Boulevard, Philadelphia, PA 19142 or an equivalent meeting space.

Sunoco will provide a facilitator for the meeting so that it can be conducted in an orderly manner and to ensure that affected organizations/individuals will have an opportunity to speak and be heard. A Sunoco representative will make a presentation to those gathered about the status of the project. The Sunoco representative will be supported by other Sunoco employees, and third party experts, as Sunoco deems necessary to answer questions.

Proposed Initial Meeting Agenda

- Upon entering the facility, attendees will be asked to sign in.
- Those wishing to make formal statements will sign in separately and will be called to speak in the order of their arrival.
- Sunoco Public Affairs representative and a PADEP/EPA representative will welcome everyone to the gathering and introduce the panel from each of their organizations.
- The facilitator will introduce the format and advise all in attendance of the Ground Rules for the evening.
- Sunoco will make its Presentation.
- Statements/questions from the organizations gathered will be taken in order of their arrival.
- Questions from the general audience for the panel will be heard after the organizations.
- Adjournment.
